

## Ronald Penny for JewishCare

The work that JewishCare does for our community is astounding! JewishCare is among the most highly regarded community based organisations, providing exceptionally high quality service.

For many years, I have treated patients with chronic diseases. I have also served as a Senior Clinical and Policy advisor on chronic diseases to both Commonwealth and State Governments. We all recognise that one of our most pressing health issues relates to the fact that more people are now living longer, but many with chronic disease. Such people need complex support.

This need increases the intensity and breadth of care provision for JewishCare, not just for the elderly. There is dire need for the full age spectrum, including our vulnerable youth, with their tragic mental and drug-related disorders.

We never know when we, our family or dear friends may be in need of such care.

JewishCare can only continue to meet the level of such care with the support of our community. Please help.

Professor Ronald Penny AO

Professor of Medicine, University of NSW

**Professor Penny is Emeritus Professor of Medicine, University of NSW and Senior Clinical Advisor, NSW Department of Health. He was a Commissioner for the National Health and Hospitals Reform Commission and was also Chairman of the Justice Health [Prison] Board. He is Medical Director of Executive Health Solutions.**

Because life's a lottery...

**JEWISHCARE**  
REBUILDING LIVES
